RISTEK HACKATHON 2026

About RISTEK Fasilkom UI

Established in 1989, RISTEK Fasilkom UI is the largest IT student organization in Indonesia, operating as a non-profit incubator within the Faculty of Computer Science, Universitas Indonesia. Dedicated to nurturing students' passion for technology, RISTEK drives real-world impact through technical mentorship, project-based learning, and industry collaborations. Marking a major new milestone in its mission to foster innovation, RISTEK is now proudly hosting its very first hackathon competition, offering an exciting stage for tech talents to collaborate and create impactful solutions.

About RISTEK Hackathon 2026

RISTEK Hackathon is an official hackathon initiative jointly organized by RISTEK Fasilkom UI and the Division of Research, Innovation, Community Engagement, and Academic Partnerships Fasilkom UI. Tailored specifically for undergraduate students at Universitas Indonesia, this event challenges young innovators to build a functional final working product addressing real-world industry problems.

The journey culminates in **Innovation Week 2026**, the grand finale of the event. Spanning five intensive days, this flagship week features simultaneous daily mentoring sessions, a public product exhibition, and a final presentation with a

RISTEK FASILKOM UI 2026
#AMPLIFYINGEXCELLENCE

ristek.cs.ui.ac.id
RISTEK Fasilkom UI

ristek.csui
@rye2953f

panel of judges, providing finalists with the ultimate stage to showcase their tech-driven solutions. Under tight deadlines, participants will test and sharpen their analytical, technical, design, and presentation skills. Beyond a standard competition, this hackathon serves as a collaborative ecosystem for students to drive positive change through technology.

Grand Theme

***“Tech for Good: Architecting Sustainable Solutions
for Tomorrow's Challenges”***

Background

In an era of rapid digital transformation, technology holds immense power not just to drive efficiency, but to act as a catalyst for meaningful societal change. **Tech for Good** is chosen as the grand theme to challenge tech talents to look beyond commercial metrics and focus on **addressing critical challenges in society**. This theme centers on leveraging technology to create **sustainable solutions for social issues**. By bridging the gap between digital innovation and human empathy, this hackathon aims to foster a generation of innovators who use their technical expertise to **build a more inclusive, smarter, and greener future** through impactful real-world applications.

Sub-theme

RISTEK FASILKOM UI 2026
#AMPLIFYINGEXCELLENCE

ristek.cs.ui.ac.id [@ristek.csui](https://ristek.csui)
[RISTEK Fasilkom UI](https://ristek.fasilkom.ui) [@ristek.fasilkom.ui](https://ristek.fasilkom.ui)

#AMPLIFYINGEXCELLENCE

RISTEK Fasilkom UI

ristek.csui
@rye2953f

All participating teams must ground their solutions in the central theme of "Tech for Good." Subthemes are entirely open, giving teams **full freedom to address any sector, including but not limited to**, Environment, Education, Healthcare, and Finance, or even tackle a completely different problem area of their choice.

1. Environment

Grounded in the vital necessity of preserving ecosystems for all living organisms, this subtheme addresses critical ecological crises aligned with global and national climate mandates. The Net Zero Emission (NZE) 2060 target demands rapid decarbonization, and technology must act as an immediate catalyst for sustainability. In this sector, teams are challenged to develop high-impact digital solutions that tackle pressing environmental issues, **including but not limited to** smart waste management, carbon footprint tracking, renewable energy optimization, and biodiversity protection.

2. Education

With UNESCO data revealing that over 250 million children and youth remain out of school globally and the Indonesia Emas 2045 vision demanding a highly competitive, future-ready generation, digital innovation must act as an immediate catalyst in the education sector. In this sector, teams are challenged to develop high-impact technological solutions that tackle pressing educational issues, **including but not limited to** AI-driven adaptive learning, assistive technologies for neurodivergent or disabled students, equitable resource distribution networks, and digital upskilling platforms.

3. Health

Healthcare is a foundational human necessity that directly dictates the quality of daily life, yet Indonesia continues to face widespread medical challenges. This

ristek.csui
@rye2953f

#AMPLIFYINGEXCELLENCE

ristek.cs.ui.ac.id
RISTEK Fasilkom UI

ristek.csui
@rye2953f

subtheme challenges innovators to leverage technology to build a proactive, equitable, and seamless framework that impacts the broader healthcare industry. We welcome diverse solutions ranging from public health infrastructure and automated medical logistics to cutting-edge clinical innovations—such as AI-driven disease diagnostics, personalized treatment tools, and tech that targets specific chronic or infectious illnesses to improve direct patient outcomes.

4. Finance

From individual daily survival to large-scale enterprise operations, the economy serves as the core force shaping human progress and everyday quality of life. However, systemic financial disparities across Indonesia continue to restrict access to this crucial foundation, preventing vulnerable communities from thriving. This subtheme challenges tech innovators to build an inclusive, resilient, and scalable economic ecosystem, ranging from localized merchant tools to systemic banking solutions that redefine the industry.

Benefit

1. **Total prize pool** worth up to **IDR 100.000.000** as a **seed grant** for the **Top 5 Winners**.
2. **E-certificate:**
 - **Participant E-Certificate** for all participants who join the competition.
 - **Finalist E-Certificate** for participants who successfully advanced to the final round.
 - **Winner E-Certificate** for the **Top 5 teams** that win the competition.
3. Exclusive access to **UI Incubate**, the flagship business incubation program managed by the **Directorate of Innovation and Impactful Research (DIRBT) UI**

(all winning teams are obligated to proceed and participate in this program to transform their innovations into impactful startups).

4. Intensive **mentoring** sessions with 10 experienced tech mentors.
5. Opportunities to **showcase innovations** at the **Product Exhibition** and **Innovation Forum**.
6. Get evaluated and **gain direct insights** from **top-tier industry judges**.
7. Expand network with **academics, investors, judges, and talented peers**.

Event Highlight

1. Preliminary Round

In this round, all registered participants must prepare a **Product Proposal** that aligns with the main theme. The top ten teams will advance to the Final round.

2. Grand Final Round (Innovation Week)

The journey culminates in **Innovation Week 2026**, an intensive **5-day** grand final experience where the **top ten finalists** undergo a rapid product development cycle. Throughout the week, participants will engage in a series of collaborative events designed to support their development process in transforming initial conceptual frameworks into fully functioning, **final working tech products**.

a. Mentoring

The top ten teams selected from the preliminary round qualify for the intensive **four-session daily mentoring program**. Qualified mentors will guide participants through the essential phases of product development, refinement, and the final sprint. This facilitated online consultation platform ensures finalists receive direct guidance from mentors at top-tier companies to refine and enhance their innovation.

RISTEK FASILKOM UI 2026
#AMPLIFYINGEXCELLENCE

ristek.cs.ui.ac.id
RISTEK Fasilkom UI

ristek.csui
@rye2953f

b. Exhibition

Finalists showcase their innovations at dedicated exhibition booths where visitors can explore the projects, ask questions, and interact directly with the teams.

c. Final Presentation & Awarding

Finalists present the deliverables to a panel of judges, followed by a Q&A session. The event concludes with an awarding ceremony to celebrate the achievements of the participants and officially announce the **top 5** winning teams.

Registration Mechanism

Eligibility

1. Each participant may only be part of **one team**.
2. Each team must consist of **3 to 5 participants**, with one member designated as the Team Leader.
3. Registration is strictly team-only, **individual registrations* are not allowed**.
4. The competition is open to **active undergraduate or vocational students** at Universitas Indonesia (cohorts of 2023 to 2026) from any faculty. **The Team Leader must be a student from the Faculty of Computer Science** (Fasilkom UI).
5. Team composition must remain identical to the initial registration throughout the competition. Replacing team members or being represented by individuals outside the registered team is strictly prohibited.
6. Participants bear the sole responsibility to actively monitor official announcements disseminated through the website, social media accounts, and official communication channels of RISTEK Fasilkom UI.

***To help individual registrants find teammates, the committee provides a centralized sheet ristek.link/HackathonTeamFinder where you can list your profile and reach out to others independently. Please note that team formation is entirely**

the participants' responsibility, and the committee only facilitates this platform.

Registration Procedure

1. Registration is **100% free of charge.**
2. Each team must register as a team via ristek.link/RISTEKHackathon2026Registration by 31 July 2026 at 23.55 WIB.
3. Only one team representative needs to register, filling in the complete details of all members and uploading the required documents, that consists of:
 - a. A valid student UI ID
 - b. Proof of following the official Instagram accounts: [@ristek.csui](https://www.instagram.com/ristek.csui) [@lifeatristek](https://www.instagram.com/lifeatristek), [@rmo.fasilkomui](https://www.instagram.com/rmo.fasilkomui)
 - c. Proof of following the official LinkedIn account: [RISTEK Fakultas Ilmu Komputer Universitas Indonesia](https://www.linkedin.com/company/RISTEK_Fakultas_Ilmu_Komputer_Universitas_Indonesia)
 - d. Proof that participants have reposted the [open registration post](#) with attached registration link on their Instagram Story
 - e. Proof that participants have mentioned 3 friends (non-team members) in the comment section of the [open registration post](#)
 - f. Proof of uploading the official event Twibbon on Instagram Feeds: ristek.link/RISTEKHackathon2026Twibbon
4. After completing the registration form, **all team members must join the Whatsapp Group provided by the committee**, as it will be used as the main communication channel. The link will be attached at the end of the registration form.
5. Further information regarding the submission portal and announcement will be provided on the Whatsapp Group.

Registration Document Submission Format

Technical Implementation

Preliminary Round

After successfully registering, every team is required to submit a comprehensive **Project Proposal** according to the following requirements:

Expected Results

- **Target Metrics:** Clear, quantifiable metrics that the software aims to achieve (e.g., reducing transaction time by 30%, automating 80% of manual data entry, or handling 10,000 concurrent users).
- **User Benefits:** The direct positive outcomes for the end-users, such as improved accessibility, cost efficiency, or an enhanced user experience.
- **Scalability & Future Roadmap:** The potential for the product to expand its features, integrate with other systems, or scale to a larger user base post-hackathon.

Format Guideline

Font	Times New Roman
Font Size	Title: 14 pt (Bold) Body Text: 12 pt
Line Spacing	1.5

Alignment	Justified
Page Numbering	Bottom - Right
Margins	3 cm (Right, Left, Top, Bottom)
Page Limit	Maximum of 10 pages (excluding the cover page, reference, and appendix)
Logo	Must appear on every page (ristek.link/RISTEKHackathon2026Logo)
Language	English
File Format	PDF
File Name	Preliminary_RistekHackathon2026_ <i>[Team Name]</i>

- The proposal must strictly be structured around software development and hackathon metrics, containing the following sections:
 - 1) **Cover Page:** Logo, Project/Product Name, and Team Name.
 - 2) **Executive Summary & Value Proposition:** A brief overview of the software/product concept.
 - 3) **Technical Architecture & Tech Stack:** System architecture or flow diagram explaining how the application processes data and functions
 - 4) **Core Features & User Journey:** Detailed breakdown of the Minimum Viable Product (MVP) scope.
- **Originality Statement:** A declaration confirming that the submission is the team's original work and is free from plagiarism (Please **make a copy** of the Originality Statement template through the following link: (ristek.link/RISTEKHackathon2026Originality))

RISTEK FASILKOM UI 2026

- **Submission:** Submit your final proposal via the provided Google Classroom.

Rules

1. Submitted innovations **must be original creations (free from plagiarism)** and **must strictly align with the designated main theme.**
2. Submitted innovations **must not have won any prior similar competitions**, nor should they currently be entered into any other ongoing competitions.
3. Each team is permitted to submit only one (1) proposal in the preliminary round.
4. Teams that fail to submit their proposals by the designated deadline will be deemed to have withdrawn from the competition.
5. All intellectual property rights for works submitted to the RISTEK Hackathon will remain the sole property of the participants.
6. RISTEK and Division of Research, Innovation, Community Engagement, and Academic Partnerships Fasilkom UI reserve the right to publish participants' submitted works for the Innovation Week 2026. Such publications will be for non-commercial purposes and will guarantee proper attribution and credit to the respective participants.

Final Round (Innovation Week)

Rules

1. Teams that advance past the preliminary round are required to participate in the entire Innovation Week program to further develop their proposed preliminary project, which includes online mentoring sessions, as well as the offline exhibition and pitching sessions.
2. Participants who fail to attend the offline exhibition and pitching sessions will face automatic disqualification.
3. The organizing committee reserves the right to disqualify any team found

RISTEK FASILKOM UI 2026

ristek.cs.ui.ac.id
RISTEK Fasilkom UI

ristek.csui
@rye2953f

- engaging in fraudulent practices or violating any rules of RISTEK Hackathon 2026.
4. The committee reserves the right to revoke any award or championship title if plagiarism, fraudulent activity, or legal violations are discovered in the submitted work or during the course of the competition.
 5. All decisions made by the judges and the RISTEK Hackathon organizing committee are final, binding, and not subject to appeal.

A. Mentoring

Days 1–4 of Innovation Week (10–13 August 2026) feature one daily mentoring session per team, conducted **online** via Zoom breakout rooms, each lasting a minimum of 1 hour. These sessions are scheduled in the evening. Once the session concludes, teams will continue working on their product development independently.

To ensure maximum engagement and value from the guidance sessions, teams are required to maintain a minimum attendance threshold of **LN/2]+1** members per session. The minimum attendance requirements based on team size are as follows:

- **3-Member Teams:** Minimum of **2 members** required.
- **4-Member Teams:** Minimum of **3 members** required.
- **5-Member Teams:** Minimum of **4 members** required.

Theme	Core Activity	Objective
-------	---------------	-----------

#AMPLIFYINGEXCELLENCE

ristek.cs.ui.ac.id
RISTEK Fasilkom UI

ristek.csui
@rye2953f

Day 1 (10/08): Opening, Initial Mentoring, & Independent Development	• Opening briefing • Initial mentor alignment • Self-directed development	Participants grasp the event flow and goals, align with mentors, and kickstart their product or prototype development.
Day 2 (11/08): Product Development & Mentor Review	• Mentor feedback iteration • Asset & pitch deck drafting	Teams refine their solutions based on feedback, show progress from Day 1, and begin preparing exhibition materials.
Day 3 (12/08): Product Refinement & Validation	• Core features refinement • Value proposition validation	Teams solidify their target user base, refine core product components, and craft their exhibition narrative.
Day 4 (13/08): Final Sprint & Exhibition Preparation	• Prototype finalization • Final presentation & exhibition preparation	Teams complete their products, finalize all presentation assets, and ensure readiness for the final showcase.

B. Exhibition

On the **Day 5 of Innovation Week** (14 August 2026), finalists are given the opportunity to showcase their innovations at dedicated exhibition booths. Visitors can explore the projects, ask questions, and interact directly with the teams. Further details regarding the exhibition procedure will be delivered at the

RISTEK Fasilkom UI

ristek.csui
@rye2953f

Final Round Technical Briefing.

C. Final Presentation

The final round requires all finalist teams to pitch their functional final working product live in front of the judges. Teams must strictly adhere to the following format:

- **Time Allocation:** Total **10 minutes per team**, broken down into:
 - 7 Minutes:** Product presentation and live final working product demo.
 - 3 Minutes:** Question and Answer (Q&A) session with top-tier industry judges.
- **Presentation Content:** The pitch deck should effectively highlight the value proposition, tech stack, product architecture, core features, and live functionality of the working prototype.
- **Strict Time Enforcement:** A timer will be visible, and the pitch will be automatically cut off once the 7-minute presentation limit is reached to ensure absolute fairness.
- **Notice:** Further requirements will be announced at the **Final Round Technical Briefing**.

Scoring Matrix

Preliminary Round

Main Criteria	Sub Criteria	Max. Score	Total Score
Problem Identification	The proposal demonstrates a pressing problem statement backed by valid field data.	7	20
	The target user persona and their specific	7	

	pain points are sharply defined.		
	The selected problem directly aligns with the main theme of the competition.	6	
Solution Fit & Innovation	The digital solution addresses the identified user pain points effectively.	9	25
	The concept provides a unique approach and strong differentiation from existing market alternatives.	8	
	The core value proposition and benefits offered to the users are articulated clearly.	8	
Business Strategy & Viability	The specific target market segments and user personas are clearly analyzed and integrated.	7	20
	The revenue model for the product is concrete and viable.	7	
	The product demonstrates a strong long-term growth roadmap and scaling potential post-hackathon.	6	
Technical Feasibility	The chosen technology stack and software architecture are realistic and secure.	9	25
	The core system features and data flow logic are designed soundly.	8	
	The mapped user journey is logical and intuitive for the target audience to navigate.	8	
Proposal Quality	The proposal is structured systematically to	4	10

	ensure the ideas are easy to comprehend.		
	The team uses clear diagrams and visual mockups to support their technical explanations.	3	
	The submitted document strictly complies with all formal guidelines and page limits.	3	
Total Score			100

Final Presentation

Main Criteria	Sub Criteria	Max. Score	Total Score
Problem Identification	The urgency and relevance of the problem are clearly validated.	5	15
	Target users and their core pain points are explicitly defined.	5	
	The scope and scale of the problem are well-analyzed.	5	
Solution Alignment	The core features directly solve the identified user pain points.	5	15
	The solution demonstrates clear value and practical feasibility.	5	
	The product concept aligns perfectly with the chosen sub-theme.	5	
Innovation & Uniqueness	The concept introduces a fresh, creative, and original approach.	5	10

	The product avoids standard open-source clones with unique logic.	5	
Technical Execution	The product functions smoothly without critical bugs during the live demo.	10	30
	The chosen tech stack and software architecture are robust and secure.	10	
	Core system features and data flow logic are engineered soundly.	10	
Design & User Experience	The UI layout is modern, clean, professional, and visually cohesive.	5	10
	The user journey (UX) is highly intuitive and easy to navigate.	5	
Pitching and Q&A Response	The pitch is delivered clearly, engagingly, and within the 7-minute limit.	10	20
	The team answers judges' questions confidently and accurately in the 3-minute Q&A.	10	
Total Score			100

Exhibition

Main Criteria	Sub Criteria	Max. Score	Total Score
Booth & Visual Display	The booth/display setup is visually appealing, neat, and professional.	10	20
	Promotional materials (posters, roll-up	10	

#AMPLIFYINGEXCELLENCE

@rye2953f

through a **post-competition incubation program** managed by the *Direktorat Inovasi Riset Berdampak Tinggi (DIRBT)*. In alignment with the Division of Research, Innovation, Community Engagement, and Academic Partnerships Fasilkom UI's objectives, all winners are obligated to advance into the **UI Incubation program** next year as official representatives of the Faculty of Computer Science (*Fasilkom*). Additional cash prizes worth **Rp1,000,000** and **Rp500,000**, will also be given respectively for the Best Exhibition and Best Speaker.

All participants, finalists, and winners will also receive an official **e-certificate** acknowledging their active participation and contribution.

Code of Conduct

All participants of the RISTEK Hackathon 2026 are expected to uphold the highest standards of integrity, professionalism, and ethical conduct throughout the entire duration of the competition. The following provisions apply to all registered participants from the point of registration until the conclusion of the competition and the announcement of results.

1. General Ethics

- **Respect and Inclusivity:** Treat all participants, mentors, judges, and committee members with respect. Discrimination, harassment, or bullying of any kind will not be tolerated.
- **Originality and Intellectual Property:** All submitted projects must be the original work of the team. Plagiarism, using pre-existing projects, or violating third-party intellectual property is strictly prohibited.
- **Compliance:** Follow all official rules, timelines, and guidelines provided by the committee throughout the event.

2. Professional Conduct

- **Collaboration and Fair Play:** Maintain professional sportsmanship. Any form of sabotage, malicious disruption of other teams' work, or collusive behavior is forbidden.
- **Punctuality:** Adhere strictly to the submission deadlines for deliverables and show up on time for all mandatory mentoring, pitching, and evaluation sessions.
- **Honesty in Reporting:** Provide accurate information regarding team composition, project status, and resource usage (e.g., proper disclosure of open-source or pre-made assets).

3. Technical & Resource Utilization

- **Fair Resource Use:** Utilize all development tools, APIs, and platform resources responsibly and solely for the purpose of developing the hackathon project.
- **No Unauthorized Assistance:** Projects must be built entirely by the registered team members. Seeking external professional help or outsourcing code during the hacking period is strictly banned.

4. Enforcement & Consequences

- **Reporting Violations:** Any suspected breaches of this Code of Conduct should be reported immediately to the organizing committee.
- **Disciplinary Actions:** The committee reserves the right to disqualify any team or individual found violating these rules, and their eligibility for prizes or certificates will be immediately revoked.
